VLSYSTEMS JOINS MIMOSA PARTNER ADVANTAGE PROGRAM

*Award-Winning Mimosa NearPoint Email Archiving Solution
Now Offered by VLSystems to Archive, Discover and Protect Critical Microsoft Exchange Data*

Irvine, Calif. and Santa Clara, Calif. – April 10, 2007 – VLSystems, a Microsoft Gold Partner and VAR of the Year, and Mimosa Systems™, a leader in Live Content Archiving solutions, today announced that VLSystems will provide solutions to its clients based on Mimosa NearPoint™ for Microsoft® Exchange, a next-generation solution for email archiving and recovery. VLSystems is offering offer Mimosa NearPoint to its customers in Southern California who wish to unify email archiving, recovery and storage optimization with a single solution that also assures email continuity and regulatory compliance.

“Microsoft Exchange is the single most important application for our client's businesses,” said Lee Green, vice president of marketing at VLSystems. “Email archiving is rapidly becoming a “must have” solution for every business that wants to manage its risk and protect itself from litigation. Mimosa’s next generation email archiving technology, with innovative features for self-service search, eDiscovery, and recovery have made it the solution of choice in the market.”

“The deep expertise in security, collaboration and messaging of VLSystems makes them a perfect partner for delivering email archiving and recovery solutions,” said Gerry Callanan, director of channel sales, Mimosa Systems. “VLSystems, with its expertise in Exchange, SharePoint and other Microsoft technologies is a great addition to the Mimosa Partner Advantage Program.”

Designed to help drive revenue quickly in a high-demand market, the Mimosa Partner Advantage Program offers three tiers of participation – Referral, Gold and Platinum – for value-added resellers, consulting services partners and systems integrators. Mimosa channel partners provide services and solutions for helping clients establish policies for retention and disposition of email, support legal discovery requests, help with Exchange migrations, implement disaster recovery strategies, as well as integrate storage with archiving software into a comprehensive solution.
